INFORMATION DISCLOSURE STATEMENT

Sir:

In accordance with the requirements of 37 CFR 1.97 and 1.98, Applicant hereby submits the prior art listed hereinbelow, copy enclosed.

(1) U.S. Patent 6,560,027 issued May 6, 2003 entitled SYSTEM AND METHOD FOR DISPLAYING INFORMATION ON A MIRROR, By Robert K. Meine. The patent discloses an inventive mirror which provides both an image and information to a user. The inventive mirror allows a user to review electronic information, while performing personal hygiene procedures. For example, the user could look at the inventive mirror and review news headlines and/or stories, read and respond to e-mails, and/or review and edit their schedule of appointments, while grooming. The smart

mirror has two modes. In a power off mode, the smart mirror acts as a standard reflective mirror. In a power on mode, then the smart mirror becomes a display device. The display device may comprise a touch screen, which would allow direct user interaction.

The undersigned submits the above-identified references for independent consideration by the Examiner and does not make any admission that these references are or are not material to the present invention or that these references are or are not prior art with respect to the present invention.

Respectfully submitted,

By
